Industrial Systems

F15B and F17B

Fanless Industrial All-In-One PC

Athena Industrial Systems

Athena integrated PC (IPC) products are perfect for working in harsh and Industrial areas.

Factories and warehouses are not the right places for PC's. Dust, oil, heat and rough usage are guarantees for a short PC life.
In these areas space for installing PC's is limited, mounting a PC plus cabling is difficult and costly.

Athena industrial systems are sturdy all-in-one devices, optionally with touch screens. They have no moving parts and do not collect any dirt, dust or oil inside.
Athena has built these devices since 35 years, so you can rely on a long history of proven Dutch quality products and support.

The F15B and F17B are perfect examples of the Dutch design and quality that we at Athena are proud of.
They host a powerful i7 CPU and fast 32GB Solid State Disk.
With strong metal housing that is IP65 water & dust protected and a standard VESA mounting they can be used in any place that you need them.
A industrial quality Infra Red Multi Touch Anti-Glare glass display gives you lots of freedom.

Specifications

Operating System	Windows 7 Professional (or Windows 8 Professional)
CPU	Intel® processor i7 1.7GHz-2.8GHz
RAM	4GB DDR3
STORAGE	32GB SATA SSD (max. 2TB) (can be accessed by a backside door)
Display	15inch AG Glass Panel resolution 1024 x 768 17inch AG Glass Panel resolution 1280 x 1024
Support colors	16.7M
Contrast Ratio	1000 (Typ)
Luminance	300 cd/m2
Optical response time	5ms
Touch Panel	Infra Red multi touch
Enclosure	IP65
LAN	Integrated 10/100/1000 Mb/s
USB	2 x USB2.0, 2 x USB3.0
Serial	2 Ports RS232
Power	12V DC adapter
Power Consumption	17 Watts
Operating	0 °C to 40 °C
Storage (Shipping)	-20 °C to +60 °C
Compliance	CE, FCC, RoHS
Weight	7kg
Security	Kensington Lock
